

# A FEW REASONS WHY WE CAN SELL GROCERIES FOR LESS

## Cash Buying and Selling

The spot cash buyer does not only get goods for less money, but usually has a much better choice of goods. **WE PAY CASH AND SELL FOR CASH.**

## Wholesale to Consumer Direct

We sell goods in reasonable quantities that any small or large family can use, but we are not a retail store and there are a great many things that we are unable to sell in real small quantities. **WHOLESALE EXPENSE IS LOWER THAN RETAIL.**

## Saving of Man Power

The fewer employees we have to handle our business, the less you are able to buy groceries for and the more men Uncle Sam is going to have to finish the war. **EFFICIENCY OUR WATCHWORD.**

## Saving of High Rent

It might be a little more trouble for you to walk a half block from Main street, but why should you help pay Main street rent. **YOU GET PAID FOR WALKING THAT HALF BLOCK.**

## GOODS WE SELL

It is always our object to think of quality first, then add just a small margin of profit above our cost. Sometimes we could get higher prices and our goods would still be lower than elsewhere, but we always follow the principle of getting along on the lowest possible profit.

We handle a complete line of groceries with the exception of green goods. We always have good fresh butter, cheese, smoked meats and freshly roasted coffee and new crop tea. We sell a half slab bacon or more, a whole ham or more, a half small cheese or more. It is selling goods in such quantities as these that we term ourselves "Wholesale." Canned goods and package goods are sold from a single article up.

## FLOUR SUBSTITUTES

The lack of space and number of articles prohibit us from quoting our general prices this time, but the following is a list of our present stock of substitutes. Prices on other goods marked plainly at store, or quoted on request.

Barley Flour, per 48 lbs.	\$3.00
Barley Flour, per 24 lbs.	1.55
Corn Flour, yellow, per 24 lbs.	1.35
Corn Flour, yellow, per 10 lbs.	.55
Corn Starch, Kingsfords, per one-half dozen	.70
Rolled Oats, per 9-lb. bag	.83
Oat Flour, per 9-lb. bag	.85
Rice, imported, per 10 pounds	1.20
Rice Flour, per 10 lbs.	1.35
Wheat Flakes, per large pkg.	.32
RYE FLOUR—Not a substitute, but it saves your wheat flour.	
Eastern Rye Flour, per 98 lbs.	\$6.25
Eastern Rye Flour, per 48 lbs.	3.15
Eastern Rye Flour, per 24 lbs.	1.65
Eastern Rye Flour, per 9 lbs.	.79

## OUR DELIVERY SYSTEM

**LOGAN** We deliver daily in Logan mornings only all orders given the day before amounting to \$1.50 or more.

**PROVIDENCE, MILLVILLE, AND HYRUM**

We deliver every Friday to above towns all orders amounting to \$5.00 or more, orders to be given by Thursday noon.

**SMITHFIELD, RICHMOND AND LEWISTON**

We deliver twice monthly to above towns on Tuesdays or Wednesdays, orders amounting to \$5.00 or more. **WE HAVE ONLY ONE PRICE AND MAKE NO CHARGE FOR DELIVERY.**

Above amounts should be exclusive of sugar more than 10 pound lots.

## THE SUGAR SITUATION

Since July 1st no grocers have been allowed to sell sugar by the sack. It will be sold in 25-pound lots only for fruit purposes. It is necessary for the customer to sign a card and the name and address is sent to the Food Administration office each time sugar is purchased. Sugar for other purposes may still be purchased in 10-lb. lots for town and 25-lb. lots distances 15 miles or more from towns, but we must not use over three lbs. per person per month. This is just a special privilege that Utah is enjoying and if it is abused it may be cut down.

**The Food Administration is fair. Let us be. Don't be a Sugar Hog because you will be found out sometime, maybe soon.**
